**NOTE TO PRESCRIBING PHYSICIAN:**  
Persistent indications of planetary ecological collapse have led to volume distribution of this product at all mainstream corporate and political outlets. The product gives a short-term "high" of political relief which leads to addiction. Long term use will double the human population, increase industrial production by 5 or 10, and strongly inhibit political comprehension, which will kill the planet. Severely warn the patient to reduce the human impact on the biosphere at once.

**DIRECTIONS:**  
Spread liberally on the population at the first sign they are waking up to the fact that their planet is dying.

**CHILDREN:**  
This product is intended for adult use only. It will kill you, whether you use it or not. All you can do is to create the political alternative by transforming the civilization.
